## ***COPYRIGHT AND RESTRICTIONS***

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted materials. The various state privacy acts govern the use of materials that document private individuals, groups, and corporations.

Under certain conditions specified in the law, libraries and archives are authorized to furnish a reproduction if the document does not infringe the privacy rights of an individual, group, or corporation. These specified conditions of authorized use include:

- non-commercial and non-profit study, scholarship, or research, or teaching
- criticism, commentary, or news reporting
- as a NPS preservation or security copy
- as a research copy for deposit in another institution

If a user later uses a copy or reproduction for purposes in excess of "fair use," the user may be personally liable for copyright, privacy, or publicity infringement. This institution's permission to obtain a photographic, xerographic, digital, or other copy of a document doesn't indicate permission to publish, exhibit, perform, reproduce, sell, distribute, or prepare derivative works from this document without first obtaining permission from the copyright holder and from any private individual, group, or corporation shown or otherwise recorded.

Permission to publish, exhibit, perform, reproduce, prepare derivative works from, sell, or otherwise distribute the item must be obtained by the user separately in writing from the holder of the original copyright (or if the creator is dead from his/her heirs) as well as from any individual(s), groups, or corporations whose name, image, recorded words, or private information (e.g., employment information) may be reproduced in the source material. The holder of the original copyright isn't necessarily the National Park Service. The National Park Service is not legally liable for copyright, privacy, or publicity infringement when materials are wrongfully used after being provided to researchers for "fair use."

This institution reserves the right to refuse to accept a copying order if fulfillment of the order is judged in violation of copyright or federal or state privacy or publicity law.

## ***HISTORY***

David R. Toeppen was born on April 5, 1927. He attended Northwestern University before graduating from Miami of Ohio University. It was during his summer off from college in 1948 that David Toeppen was hired by Yellowstone National Park to document the various geysers located throughout the park. His summer is documented on these 185 Kodachrome slides in this collection.

David R. Toeppen would then go on to donate his summer of 1948 work to the archives at Yellowstone National Park where they are now held.

## ***SCOPE AND CONTENT***

David R. Toeppen Slide Collection  
1948

***CATALOG NUMBER*** YELL 2424

***VOLUME*** 0.25 ft.

***DESCRIPTION*** This series consists of 189 slides that make up the collection. These slides consist of various pictures throughout Yellowstone National Park in 1948.

Slides 19, 110, and 164 were retained by David and are marked accordingly on the index with \*\*\*

There was also an original miscount of the slides resulting in there not being a slide 182.

***ORGANIZATION*** The slides are organized by their assigned numbers (1-189)

***PROVENANCE*** Gift of David Toeppen

***RESTRICTIONS*** NO
